CERTIFICATE

This is to certify that

The laboratory SANA Srl accredited by ACCREDIA with № 0747 according to the UNI EN ISO 17025:2018 has performed

a test for Bactericidal Disinfecting Tool (BDT) using bactericidal activity from 5th to 12th October 2023

with STEAM GENERATOR "EV" of the company EV INTERNATIONAL Ltd.

in accordance with UNI EN ISO 13697:2015 + A1:2019

Quantitative surface test without mechanical action for the evaluation of bactericidal activity of dry steam used in the medical area.

Based on the data obtained in this study and the criteria of UNI EN ISO 13697:2015 + A1:2019, dry steam delivered has been shown to induce, in clean conditions, a reduction exceeding > 99,999% of the viability of the counts under examination for bactericidal activity.
